Your outdoor patio heater is designed for use as temporary comfort heating for your outdoor patio, outdoor decks, outdoor spa areas, pool areas, and other outdoor areas with plenty of fresh air. The heater is NOT designed, approved, or intended for indoor use or enclosed area use such as a garage, commercial building, tents, ice fishing tents, prefabricated buildings or other enclosed areas. The heater is also not designed for use on moving objects or vehicles such as houseboats, yachts, travel trailers, boats, or other moving devices or vehicles. The heater must always be used on firm, level, and stable ground. Never move the heater while it is in operation. **WARNING:** Never operate heater in an explosive atmosphere and be sure to keep unit away from where gasoline or other flammable liquids or vapors are stored or used.
